HANSESTADT STENDAL
GERMANY**

Dear Mr. Ziler, on behalf of all the people of Boyarka city territorial community I express my sincere respect and gratitude to the people of Germany in your person for all the support of Ukrainian people in their desire to preserve freedom and independence.

The delegation from Boyarka had the opportunity to meet you in person during the official visit to Pulawy on the celebration of their City Day. I received very positive feedback about this meeting. I appreciate your interest to our community, readiness for dialogue and new cooperation.

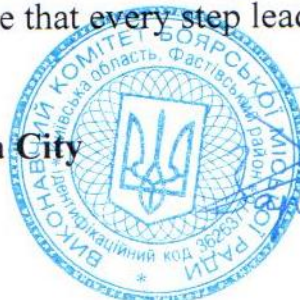

Despite the war, our community is trying to establish new international relations, move towards changes and implement new projects. We know that you support Ukrainian people by accepting into your community families who are forced to flee from war and destruction. We sincerely thank you for this!

I am sure that the cooperation of our communities will provide new opportunities for both. Therefore, we invite you to international partnership between Boyarka and Stendal communities. Hope the deputies of the council will consider a proposal for international partnership with the subsequent signing of the Memorandum on community cooperation.

We believe that every step leads Ukraine to Victory!

**Best regards
Mayor Boyarka City**
